County Activities of Excellence
2015 Winners

Project: County Safety Program

Program Area: Education & Ag Promotion

County Farm Bureau, State: Limestone, TX

Membership Category: 1001-3000 members

Program Description: The Farm Safety Program was initiated to educate producers on updated traffic safety laws as they pertained to agricultural producers (farm implements, trailer titling, farm use exemptions, etc) and review new laws and procedures for private, commercial, and non-commercial pesticide applicator license holders. The district safety manager from the Department of Public Safety, a panel of local and regional state troopers, and the local agricultural extension educator were speakers. The program was attended by both Farm Bureau members and non-members. This program demonstrated the county’s commitment to providing education and resources to agricultural producers as well as built relationships with other local agricultural organizations to aid in that mission.
