County Activities of Excellence
2012 Winners

**Project:** County Leadership Agriculture Day

**Program Area:** Education and Ag Promotion

**County Farm Bureau, State:** Taylor County Farm Bureau, KY

**Membership Category:** 5,001-12,000 members

**Program Description:** The Taylor County Farm Bureau saw a need for their community leaders to learn more about agriculture in their community. As a result, the county Farm Bureau created an event specifically designed to engage community leaders and students. The goal was to bring everyone around the same table to talk issues facing the community; while at the same time building advocates for agriculture. The group went on tours of working farms in the area. Each stop featured hands-on activities and presentations about specific agricultural issues. The collaborative efforts lead to several Farm Bureau members becoming more involved in other local organizations, government committees and advisory boards.
