

GRO HIGH RETENTION DRAIN MAT - 1.0"

GRO HRDM is a 1.0" thick, high-retention drainage panel suitable for use with green roof systems, at-grade landscape installations, and other conditions where maximizing water retention capacity is a priority. Made from 100% recycled high-density polypropylene, GRO HRDM 1.0" is intended to be used in conjunction with GRO Filter Fabric for green roof installations.

MATERIAL	100% Recycled High-Density Polypropylene
DIMENSIONS	4' x 6' x 1" high; 24 ft ² per panel
WEIGHT PER PANEL	8 lbs/panel
COMPRESSIVE STRENGTH	> 7,000 psf
WATER RETENTION	0.458 gal/ft ² (ASTM E2398/E2398M)
ACCOMPANYING GRO PRODUCT	GRO Filter Fabric
