NB The Appendix D (Challenge events) says:

5.3 In any year, after all tournaments have been concluded, the EHF will rank teams according to their final positions in their respective tournaments for that year. If teams are ranked equally then rankings will be decided by one of the following procedures:

(a) If teams finishing 1st equal, 3rd equal, 5th equal or 7th equal played in the same pool in the previous tournament then the team which finished ranked higher in the pool will be placed 1st, 3rd, 5th or 7th and the team which finished below in that pool will be placed 2nd, 4th, 6th or 8th.

(b) If the teams have not played in the same pool then the rankings will be decided by EHF taking into account the records of the 2 teams (both averaged if necessary to allow for any difference in the number of matches played) following section 7.3 below. Where this does not produce a clear ranking then their rankings will be decided by EHF. To avoid doubt, only the pool matches will be taken into account when deciding the Nations Club Rankings.

A4d (Outdoor Master Regulations) Notwithstanding anything else in the EHF regulations, which tournament clubs shall be entitled to play in, and the ranking of the pools within that tournament, shall be a matter entirely within the discretion of EHF.
